

SOFTWARE UPDATE

# GET THE MOST OUT OF YOUR DROID INCREDIBLE BY HTC.

Verizon Wireless is pleased to announce a new software update, Software Version: Build Number: 4.06.605.3; Baseband Version: 2.15.10.07.07, for your Droid Incredible. This update provides several improvements for your device, as well as upgrading to the Android 2.3 (Gingerbread) Operating System (OS).

**Verizon Wireless and HTC encourage you to download this update.**

## Enhancements:

- + Download Manager App:
  - New App to manage all of your downloads from web browsing, email attachments and other apps.
- + App and Power Management Details:
  - Under Manage Applications, a new "Running" tab displays a list of active applications and the storage and memory being used by each.
- + Improved Word Selection and Copy Functionality:
  - New capability to select a word via press-and-hold. A second press of the selected word copies the selected characters.

## Messaging

- + MMS messages send correctly.
- + Properly save audio files from MMS messages.
- + Successfully play audio files from a message.
- + Send Vcard through a SMS message.

## Connection

- + Internet connection via Bluetooth® now enabled.
- + VZ Navigator™ now operates over Wi-Fi.

## Additional Features

- + Change songs in the Music widget by tapping the forward button.
- + Camera functions successfully without inserting SD card.
- + City ID app fixed.
